Please use `reportingPEP_A111`. - Please double check for common security vulnerabilities: XSS, injection, CSRF, CSRF etc. - Please make sure the doc doesn't contain any encrypted code. The documentation is a little boring. Most importantly, remember that buyers may not be technically inclined. They may just be looking for an item to drop into their existing code base. Also keep in mind that a typical user won't really know about all the features your system brings to the table. With that in mind, you should also look into providing a quick start guide of some sort. It need not be long, a short one will do. Income calculation

Calculating your income

When you sell an item on Envato Market, the total purchase price is made up of your item price plus Envato's fee to the buyer. You'll earn your item price minus any Envato author fees. Those author fees are dependent on whether you sell exclusively and your all-time sales to date. The more you sell, the more you'll make.

Non-Exclusive Authors

Our author fee to non-exclusive authors is 55% of the item price. So for example when an item sells for \$100 the breakdown of fees looks like this:

Example \$100 item

- buyer fee - \$20
- item price - \$80

Exclusive Authors

Our author fee to exclusive authors is between 12.5%-37.5% of the item price. So for example when an item sells for \$100 the breakdown of fees looks like this:

Net Author Earnings for exclusive authors will adjust according to your earnings amount. With total cumulative sales of \$0 your Net Author Earning on a \$100 item would be \$50.

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.
